

Color Train, Color Train

All aboard the color train! Take a ride on a series of magical ribbons and end with a dramatic pop-up surprise! A remarkable, innovative format provides toddlers a thrilling ride, filled with dozens of point-and-say objects of all the primary and secondary colors. A cheerful engineer guides kids on a magical train whose cars appear amazingly one-by-one on every spread, then disappears into a long black tunnel, only to spring to life in a spectacular 3D finale. An ultra-sturdy binding, high-quality full-color printed ribbons, and an unexpected ending makes this the perfect example of a play-and-learn book. Ages 2 to 4.
