

First Encyclopedia of the Human Body (First Encyclopedias)

This is a fantastic new edition of this bright and lively encyclopedia, introducing young readers to the wonders of the human body. Filled with information on the brain, respiration, circulation and the senses, this book answers such questions as Where does your food go? How many bones are there in your body? and What are eyelashes for?. Simple text, amazing photographs, detailed illustrations and a selection of exciting recommended websites make the subject easy to understand.
