

Nature Detective: British Trees

Find out about more than 50 of the most common trees found in Britain today. Full descriptions of the trees, along with their scientific name, size, family and habitat, will ensure you can recognise which tree is which. Beautiful large colour photographs of the trees, their leaves, seeds and fruits, will help with easy identification. Includes information about broadleaved trees and conifers, explaining the difference between deciduous trees and evergreens, and looks at how the parts of trees, from the leaves and bark to seeds and berries, can help you to recognise each tree. You can also follow a step-by-step activity to help you create your own tree guide.

Become a nature detective and explore the natural world around you. If you enjoy this book, then why not search out the other titles in this series: British Birds; British Mammals; British Insects; British Wild Flowers and British Seashore. Features the following trees: English Oak, Turkey Oak, Sessile Oak, Aspen, White Willow, Weeping Willow, Pussy Willow, Crack Willow, Common Osier, Black Poplar, White Poplar, Silver Birch, Alder, Hazel, Hornbeam, Common Beech, Common Ash, Elder, Holly, Common Lime, Large-leave Lime, Small-leaved Lime, London Plane, Rowan, Horse Chestnut, Sweet Chestnut, Field Maple, Sycamore, Yew, Wych Elm, English Elm, Whitebeam, Hawthorn, Blackthorn, Crab Apple, Wild Cherry, Common Pear, Common Juniper, Walnut, Magnolia, Norway Spruce, Larch, Douglas Fir, Scots Pine, Sitka Spruce, Cedar, Monkey Puzzle Tree.
