

Return of the Lion People

In this sequel to *Nasha: The First Dog*, the Wolf Clan is attacked by the Lion People, a warlike clan that mysteriously returns after a disappearance of many years. Lartha, the priestess of the clan, foretells their coming when a dragon eats the sun. A solar eclipse occurs, and not long after, the Lion People attack the village while the hunters are away. The only way to rescue the captives from a seemingly impregnable stronghold is a risky plan with little chance of success.
