

Totally Bugs (Totally Books)

Totally Bugs is totally cool! Budding entomologists can get an up-close look at bug anatomies and learn all about their lives. Follow the easy step-by-step instructions to build five different bugs: a ladybug, a black ant, a stag beetle, a greenbottle fly, and an orb weaver spider. The world of insects and spiders comes to life as kids build each creature, then read along and learn fascinating facts about their lives and environments. Totally Bugs is the totally smart way to learn about some of our favorite creepy-crawly creatures.
